

LEAMINGTON SPA

Primary Care Network

13<sup>th</sup> September 2021

Dear Parents/Guardians,

I am writing to you on behalf of the Leamington Primary Care Network. We are a group of 8 GP practices in Leamington who have joined together to deliver the COVID vaccination since December 2020.

Just to inform you, following JCVI guidance we are now able to vaccinate children aged 16-17 years old. Our onsite clinics have paused for the time being, therefore in order to make the vaccine available to this age group, we will be conducting a pop up clinic at Campion School on Wednesday 15<sup>th</sup> September 2020. The vaccine given will be the Pfizer vaccine, and the vaccine will only be given following the consent process with a registered vaccinator.

We strongly recommend your child receives the vaccination, but of course this is entirely their decision and is in no way compulsory.

For more information please visit the following website –
